Re: HIMCO Superfund Site, Elkhart, Indiana

Dear Tom:

As we discussed by telephone today, we would like to obtain copies of the Lab Quality Assurance Summary Report and a complete set of the QA/QC documents in order to evaluate U.S. EPA's risk assessment analysis. In addition, we would like to review the original laboratory data results. It is important for us to receive these documents promptly in order to allow us to analyze this information and complete our comments by November 30. You advised me that you have no ability to inquire as to these documents until Friday at the earliest. Under the circumstances, I would appreciate your assistance in obtaining the documents as soon as possible.

Please call me or Reed Oslan if you have any questions.

Very truly yours,

  
Karen L. Prena
